

WARNING: Contains Capsaicin

According to HIWU, studies have found that capsaicin is absorbed and eliminated more rapidly when consumed orally. HIWU believes the use of capsaicin products on bandages, doors, and other areas in order to discourage horses from chewing represents a minimal risk for a positive test.

We suggest you stop use of this product one week prior to any incidence of testing.

A special formula of soap, spices, and natural flavor to stop animals from chewing!

DIRECTIONS: Spray liberal amount on bandages, leg wraps, blankets, casts, and wood. Do not spray on feed or in water.
