SU-PER[®] Anti-Oxidant

Protects Against Free Radical Damage!

A potent anti-oxidant formula which protects against oxidative stress, and assists the body in combating environmental pollutants.

Our most complete anti-oxidant combination, and chosen *TWICE* by the Horse Journal as a product of the year! *SU-PER[®] Anti-Oxidant* combines all of the most effective anti-oxidants along with a full complement of support nutrients. This combination is formulated to provide support to horses with the greatest need for anti-oxidant support, such as performance horses, seniors, or horses recovering from injury/illness.

Normal body functions create free radicals. Additionally, there are other factors that can greatly increase free radical production. For horses, these main areas of concern are exercise and competition, pregnancy, stress, illness, inflammation and aging.

The greatest need for anti-oxidants is in performance horses, and those who are very active. These horses constantly deal with inflammation from minor sprains and strains (or at times more serious injuries), stress of competition, travel, or unfamiliar sights and sounds), as well as the demands of exercise.

Many of the anti-oxidants in this product you will be familiar with, such as Vitamin C, Vitamin E, Selenium, Beta Carotene and Grape Seed Extract. These are some of the most widely used and most effective anti-oxidants. But *SU-PER[®] Anti-Oxidant* also contains nutrients that not only work as anti-oxidants, but also help boost the immune system, such as Quercetin, Superoxide Dismutase, B-Complex Vitamins, DMG, and MSM. *SU-PER[®] Anti-Oxidant* is formulated not only to work as a potent anti-oxidant blend, but also support general health, energy production, and immune response for horses under stress or recovering from illness.

SU-PER[®] Anti-Oxidant is recommended for all horses, regardless of age or activity level. If you are looking to maintain the health of your horse and prolong their active years, anti-oxidants are a sound investment.
