SU-PER[®] Calm

Promotes a Sense of Relaxation and Mental Alertness!

SU-PER[®] Calm is a blend of natural herbs and the amino acid **L-Tryptophan**, designed to take the edge off without sedation or performance loss.

It promotes relaxation, focus, and a balanced attitude in horses that are nervous, excitable, or stressed. Horses are naturally wired with a strong *fight-or-flight* instinct, which makes them highly sensitive to stress.

This often leads to nervousness, anxiety, poor focus, and challenging behavior.

While you can't eliminate every stressful situation, you can help your horse handle it more calmly.

Key Benefits

- Helps reduce nervousness, anxiety, and overreactions
- Calms without dulling performance or awareness
- Aids in balancing cortisol and serotonin levels
- Herbal extracts enhance calming effects without side effects
- No Valerian Root or sedatives that could impair performance

Key Ingredients & Their Functions

L-Tryptophan

- A natural precursor to serotonin, the "feel-good" neurotransmitter, supporting a sense of well-being and balance during stress.

Herbal Extracts

- Black Cohosh, Passionflower, Hops, and Ginger work synergistically to promote calmness naturally.

No Sedation

- Unlike Valerian Root products, **SU-PER[®] Calm** won't hinder competition readiness.

Note: ***SU-PER® Calm*** is a natural calming supplement designed to help horses manage stress, nervousness, and anxiety without sedation or loss of focus. Formulated with L-Tryptophan and herbal extracts like Black

Cohosh, Passionflower, Hops, and Ginger, it supports healthy serotonin levels for improved mood and

relaxation. Unlike some calming products, it does not contain Valerian Root, making it safe for competition and travel. Available in powder and paste, ***SU-PER® Calm*** provides effects within 1 hour, lasting 3–4 hours, and can be safely re-dosed as needed.

Recommended Use

- Before competition, training, or events
- During transport or trailering
- When exposed to new places, people, or horses
- Any situation that may trigger nervousness or stress
