SU-PER[®] Di-Calcium Phosphate

Maintains Healthy Bone Structure!

Provides Calcium and Phosphorous to help support normal bone health.

SU-PER[®] Di-Calcium Phosphate is a source of supplemental Calcium and Phosphorus, minerals necessary for proper bone development in horses.

Calcium and Phosphorus are critical for growth, repair and maintenance of the skeletal system, and should be maintained in the diet at a ratio in the range of 1:1 to 2:1.

While most common feeds and forages contain adequate amounts of these minerals for basic maintenance, the body's requirements increase in certain periods, such as during early development, heavy training or exercise, or diets high in grains.

It's important to know your horse's daily Calcium and Phosphorus intake, and adjust as necessary. Fresh forages may have a good Calcium to Phosphorus ratio naturally, but they can be quite different. For instance, alfalfa hay is about 3 times higher in Calcium than grass hay, but both are about the same in Phosphorus levels.

Also keep in mind that feeding high amounts of grain, feed concentrates, or supplements containing grain byproducts can cause an imbalance. Higher amounts of Phosphorus are seen in these types of feed ingredients. Performance horses, in addition to requiring more of these minerals, are also the ones that are most at risk of this type of imbalance due to common high-energy diets containing grains and concentrates.

SU-PER[®] Di-Calcium Phosphate can be used effectively when the horse's dietary requirements for Calcium and Phosphorus need to be increased, and provides them within the optimal ratio.

Guaranteed Analysis	
Feeding Amount: 1 Ounce	
Feedings per container: 320	
Calcium	Minimum 22.00% Maximum 25.00%
Phosphorous	Minimum 18.50%
Fluorine	Minimum 0.015%
Ingredient: Di-Calcium Phosphate.	

CAUTIONS: Take time to observe
label directions. Keep out of reach
of children and other animals.
This product should not be given
to animals intended for human
consumption. Close container after
each use. Store in a cool, dry place.

Contains a 10 month supply for one horse.

Net Weight:
20 Pounds
(9.07 kg.)
