SU-PER[®] Freeze

No-Rubbing, No-Ice, Leg Freeze!

A fast-acting, deep-penetrating preparation which quickly cools and soothes knees, ankles, and shins. May be used the day of an event.

Ice treatment is usually the best way to address leg pain and swelling after exercise. However, ice and other soaking equipment is not always available or practical for the situation. *SU-PER[®] Freeze* is an easy to use, less restrictive alternative to icing, and a short term solution until you can provide a proper ice treatment.

SU-PER[®] Freeze is a fast-acting, deep-penetrating leg freeze which quickly cools and soothes knees, ankles, and shins. It helps manage soreness and discomfort caused by overexertion. It can be used to address tendon and ligament issues such as bowed tendons, stocking up (edema), suspensory ligament damage and wind puff.

SU-PER[®] Freeze can also be used before competition or exercise as a leg tightener. *SU-PER[®] Freeze* is highly concentrated, and is mixed with water before using. Simply soak your bandages and keep them saturated with *SU-PER[®] Freeze* solution.

LIQUID **Pint**

*A fast-acting, deep-penetrating preparation
which quickly cools and soothes
knees, ankles, and shins!*

WHEN TO USE: **Before Event:** Apply two hours before event.
After Event: Apply as soon as possible, and leave in place for 2 to 3
hours. **For continued soreness:** Re-Apply twice a day for 1 to 3
days, if necessary.

DIRECTIONS: Clean legs thoroughly. Mix using the ratio of 1 pint
per 2 gallons of tap water. Saturate "cold water bandages" and wrap.
Keep bandages wet with solution for best results. Wash leg after use.
After washing off the solution, legs may be wrapped.

For Equine Use Only.
