SU-PER[®] Gel

Outstanding Massage Gel!

Cools, draws out swelling, and tightens legs. A soothing aid in the temporary relief of minor soreness and stiffness due to overexertion where a massage is indicated.

SU-PER[®] Gel is a topical gel that creates a warming sensation to assist in drawing out swelling, tightening legs, and helping to relax and loosen stiff muscles. It aids in the temporary relief of minor soreness and stiffness due to overexertion where a massage is indicated.

The warming sensation of *SU-PER[®] Gel* helps to increase circulation without a strong counter-irritant effect. It is non-irritating, non-staining, and can be used several times a day if necessary.

SU-PER[®] Gel is an excellent choice for a massage gel to give temporary relief for general muscle and joint soreness, but can also be a unique and effective tool for pre-event massages. Massage in general can help to relax the horse, work out muscle knots, and relieve tension. Performing a pre-event massage works to increase blood flow throughout your horse's body and to help "wake up" the muscles in preparation for exercise. This can help to reduce muscle spasms and tension, allowing your horse to move more freely and effectively, as it can also minimize the risk of muscle strains and sprains.

Rub well into sore and stiff muscles and joint areas, and leave in place. Can be used in combination with most standard massage mitts. Extra heat is produced if the applied area is covered, so avoid covering for prolonged periods.
