SU-PER[®] Iodine Shampoo

Non-Staining Formula!

**A deep-cleaning, conditioning shampoo
that will not stain the hair.**

It's very common for your horse to have skin issues. Allergies, fungus, bacteria, diet, bug bites, and even your horse's behavior can lead to various skin problems. Itching, dryness, and irritation can be frustrating for the horse and for you, especially when you don't know what may be causing the problem.

To address such skin conditions, a medicated shampoo can be very effective. *SU-PER[®] Iodine Shampoo* is a deep-cleaning, non-staining, pH-balanced shampoo that can be used on a regular basis to help prevent skin conditions that can develop in horses, particularly in the warmer months or during training.

It's formulated specifically for horses, to help address common skin ailments while remaining mild enough to protect the natural oils present in the skin and coat.

Regular use of *SU-PER[®] Iodine Shampoo* can help avoid issues related to fungus or bacteria, and help soothe irritated skin, allowing for better coat health.

SU-PER[®] Iodine Shampoo contains 2% Povidone Iodine in an anionic, pH-balanced shampoo, providing 0.2% titratable iodine. It lathers up well to penetrate to the skin easily, and rinses away quickly. It is fully biodegradable, and safe for regular use.
