SU-PER[®] Liniment

Guaranteed Quality at a Better Price!

For use as an aid in the temporary relief of minor stiffness and soreness caused by overexertion.

Compare to Absorbine[®]!

SU-PER[®] Liniment is our classic equine liniment, and has been among our best sellers for decades. It helps to cool, soothe and relax sore muscles, but has many other uses as well.

SU-PER[®] Liniment is a popular choice for helping provide temporary relief of minor stiffness and soreness caused by exercise. At full strength, it can be rubbed directly into muscles and joints to provide fast acting relief. When diluted with water, it can be used as a soothing, refreshing body wash. And due to its natural antiseptic qualities, **SU-PER[®] Liniment** can help manage bacterial or fungal skin conditions.

It can be used alone, or wrapped with breathable bandages for more pronounced results. Liniments replaced blisters long ago as a more humane way to treat sore muscles. Rather than using a strong counter-irritant effect like a blister, liniments penetrate soft tissues of the skin, opening up pores and capillaries to increase blood flow to the muscles. This increased blood flow allows muscle tissue to receive oxygen and nutrients more efficiently, as well as help clear out lactic acid that may remain in the muscle after exercise.

In effect, liniments not only relieve minor stiffness and soreness, but help to speed the recovery process of tired muscles.

SU-PER[®] Liniment favorably to Absorbine Liniment,
at a much more economical price.
