

SU-PER[®] Mag Paste

Epsom Salts Poultice and Drawing Agent!

A soothing aid for strains, sprains, bruises, general soreness, and abscesses. Our unique paste-like formula helps it to cling to the affected area, and is much easier to work with than other available Epsom poultices.

SU-PER[®] Mag Paste is sometimes referred to as an Epsom Salt Poultice, and it can be used just like a clay-based poultice.

Epsom Salt has long been used as a soak for sore, tired muscles, and to help draw out inflammation and swelling. If your horse is in need of relief, but soaking is not practical or available, *SU-PER[®] Mag Paste* can deliver similar results on the spot in just 20-30 minutes.

The most common usage of *SU-PER[®] Mag Paste* however, is for hoof abscesses. It is a fast and reliable tool in drawing out the abscess, and can be re-applied every 12 hours without irritation. Our unique paste-like formula helps it to cling to the area being treated and is easier to work with than most other Epsom Salt poultices on the market.

It is also a great product to have around the barn in the summertime, since it works so well for itchy bug bites! Just dab a little on the bite, and the itching and irritation go away almost immediately.

SU-PER[®] Mag Paste is a great addition to your first aid collection, and a must-have in fly season!
